Motorola MC68HC08 Family Evaluation Kit 908JL3 Version

The Motorola MC68HC08 Family Evaluation Kit, 908JL3 version was created to allow designers to learn and develop on a common platform without having to invest in costly development tools. It features the cost effective MC68HC908JL3 from Motorola. When coupled with P&E Microcomputer Systems' WinIDE® Software Development Tools, the evaluation board becomes a full development platform.

Options to the board include a 16-character LCD display and a piezoelectric speaker to allow further development. Additionally, the included sensors can be disabled and associated I/O can be redirected for other user-defined purposes.

Features:

- ▲ Motorola MC68HC908JL3 8-bit FLASH microcontroller
- ▲ Pressure sensor
- ▲ Temperature sensor
- ▲ Potentiometer adjustable analog input
- ▲ RS-232 serial interface
- ▲ Optional piezoelectric speaker
- ▲ Optional 1x16 character LCD panel

Target Applications:

- ▲ White goods (washing machines, dishwashers, clothes dryers, etc.)
- ▲ Security systems
- ▲ Lawn watering sensor and controller
- ▲ Automatic contrast control of LCD displays
- ▲ Digital capacitate discharge ignition systems

The Motorola MC68HC08 Family Evaluation Kit, 908JL3 version includes:

- MC68HC908JL3 evaluation board
- Functional demo application software
- Assembler/debugger and simulator
 - Documentation

Supporting suppliers:  **MOTOROLA**

Ordering Information:

Part Number	Hardware	Resale
ADS-MOT-JL3-EVL	MC68HC908JL3 Evaluation Kit	\$89.95 USD
